PROSPECTUS SUPPLEMENT SUMMARY

This prospectus supplement summary highlights selected information contained elsewhere in this prospectus supplement, the accompanying prospectus or incorporated by reference in this prospectus supplement. As this is a summary, it does not contain all of the information that you need to consider in making your investment decision. You should carefully read this entire prospectus supplement, the accompanying prospectus and the documents incorporated by reference in this prospectus supplement, including the risks of investing in our securities discussed under the heading “Risk Factors” beginning on page S-5 of this prospectus supplement, on page 4 of the accompanying prospectus, as well as the risk factors included in the documents incorporated by reference herein, including our Annual Report on Form 10-K for the fiscal year ended August 31, 2024. Each of the risk factors could adversely affect our business, prospects, operating results and financial conditions, as well as adversely affect the value of an investment in our securities.

Our Business

Kura Sushi USA, Inc. (“Kura Sushi”) is a technology-enabled Japanese restaurant concept that provides guests with a distinctive dining experience by serving authentic Japanese cuisine through an engaging revolving sushi service model, which we refer to as the “Kura Experience.” We encourage healthy lifestyles by serving freshly prepared Japanese cuisine using high-quality ingredients that are free from artificial seasonings, sweeteners, colorings, and preservatives. We aim to make quality Japanese cuisine accessible to our guests across the United States through affordable prices and an inviting atmosphere.

Kura Sushi is headquartered in Irvine, California and was established in 2008 as a subsidiary of Kura Sushi, Inc. (“Kura Japan”), a Japan-based revolving sushi chain with over 550 restaurants and 40 years of brand history. Kura Sushi opened its first restaurant in Irvine, California in 2009, and currently operates 70 restaurants across 20 states and Washington, DC.

Our Strengths

Authentic Japanese Cuisine—A Tribute to Our Roots. We provide our guests with a Kura Experience that is uniquely Japanese and is based on the legacy built by Kura Japan. Kura Japan opened its first revolving sushi restaurant in 1984 and was among the pioneers of the revolving sushi restaurant model. Our various sushi items are made fresh using high-quality fish and rice. Our vinegar, made using old-world methods, is sourced from Japan. Our broths are made in-house daily using ingredients that impart complex umami flavors. To complement our sushi selection, we offer a variety of side dishes and desserts including gyoza, tempura, soups, ramen, mochi, and cheesecake. In our commitment to our Japanese heritage and traditional cooking methods, we have prepared our food without artificial sweeteners, seasonings, colorings, or preservatives since our formation.

“Revolutionary” and Engaging Dining Experience. The Kura Experience is a multi-sensory experience for our guests comprised of the sight of our beautifully crafted cuisine weaving through our restaurants, the motion of dishes zipping by tables on the express belt, robots delivering drinks and condiments, the sound of anime videos playing on tableside touch screens, the thrill of being rewarded for achieving dining milestones, and the flavor of authentic Japanese dishes, which collectively create a highly entertaining and engaging environment for our guests. Our revolving conveyor belt service model offers a steady stream of dishes and continuous service which we believe builds anticipation and a sense of discovery among our guests. To simplify the guest experience, all plates on the revolving conveyor belt are the same price within a restaurant. In addition, items ordered on our on-demand screen arrive on the express belt in a theatrical fashion, which we believe our guests find entertaining and adds to the sense of constant motion in our restaurants. Our menu of small plates allows our

guests to sample a variety of dishes, and with approximately 130 items on our menu, there is always something new to enjoy when our guests return. We also seek to delight and reward our guests for achieving dining milestones with short anime videos and a rotating selection of small toys from our Bikkura-Pon rewards machines. For every five plates placed into the plate slot, the tableside touch screen plays a short anime video, and for every 15 plates, our proprietary tableside Bikkura-Pon rewards machine dispenses a toy. We believe our Bikkura-Pon rewards machines encourage guests to consume a greater quantity of plates as they work towards achieving the next dining milestone. Our continuous service model creates an atmosphere of active participation where food is at the center of the conversation, and we believe it also creates a memorable and shareable experience for our guests.

Compelling Value Proposition with Broad Appeal. Our service model allows our guests to control their dining experience, from food variety to time spent on a meal, and from portions to check size. With instant access to food on the revolving conveyor belt, our guests can drop in for a quick meal or stay longer for a more relaxed dining experience. Our guests can enjoy high-quality dishes at affordable prices because of our efficient kitchen operations and low front-of-house labor needs. The average plate price on the revolving conveyor belt of our restaurants is around \$3.75, which appeals to guests with appetites and budgets both large and small. We believe that our authentic approach to a popular cuisine and unique and flexible dining experience appeal to a wide range of demographics. In addition, we believe our commitment to high-quality and non-artificial ingredients in our food is at the forefront of current dining trends as consumers continue to seek healthy and natural food options.

Highly Attractive Restaurant-Level Economics. At Kura Sushi, we leverage the disciplined operational expertise honed over the more than 40-year history of Kura Japan to help us achieve strong restaurant-level economics. We believe our results are driven by our high-volume restaurants, intelligent and efficient operations, and flexible real estate model:

- **High-Volume Restaurants:** We believe the combination of authentic Japanese cuisine at an accessible price point and a service model that promotes discovery, fun, and optionality for guests creates a highly differentiated dining experience that drives traffic and robust sales in our restaurants;
- **Intelligent and Efficient Operations:** Our revolving conveyor belt, express belt, and touch screen menu enable self-service dining and reduce our need for service staff. In addition, our use of sushi robots, vinegar mixing machines, and automatic rice washers in our kitchens eliminates the need for highly trained and expensive sushi chefs. The proprietary technology deployed in our kitchens allows us to collect real-time data on food consumption and guest preferences which we analyze to further optimize our restaurants and enhance the dining experience; and
- **Flexible Real Estate:** We have a flexible restaurant model which has allowed us to open restaurants as small as 1,600 square feet and as large as 7,920 square feet. We believe this allows us to maximize our sales per square foot.

Our Growth Strategies

Pursue New Restaurant Development. We have pursued a disciplined new unit growth strategy, having expanded our concept and operating model across varying restaurant sizes and geographies. We plan to leverage our expertise opening new restaurants to fill in existing markets and expand into new geographies with the same careful planning as we have demonstrated in the past. See also our real estate strategy under “Site Development and Expansion – Site Selection Process” in our Annual Report on Form 10-K. We believe that we have the potential to become a national Japanese restaurant brand, with a long-term total restaurant potential in the United States of over 290 restaurants. However, we cannot predict the time period over which we can achieve any level

of restaurant growth or whether we will achieve this level of growth at all. Our ability to achieve new restaurant growth is impacted by a number of risks and uncertainties beyond our control, including those risk factors described under the heading “Risk Factors” beginning on page S-5 of this prospectus supplement and on page 4 of the accompanying prospectus, and under the heading “Item 1A. Risk Factors—Risk Factors” in our Annual Report on Form 10-K.

Deliver Consistent Comparable Restaurant Sales Growth. We believe we will be able to generate comparable restaurant sales growth by growing traffic through increased brand awareness, consistent delivery of a unique and engaging dining experience, new menu offerings, and restaurant renovations. We will continue to manage our menu and pricing as part of our overall strategy to drive traffic and increase average check. We continue to explore initiatives to increase off-premises sales, enhance our rewards program, and improve our mobile application. Our rewards program, which has been rolled out across our entire restaurant base, tracks participants’ spending and provides a discount voucher if a spending threshold is achieved.

Increase Profitability. During our expansion, we have invested in our infrastructure and personnel, which we believe positions us to continue to scale our business operations. As we continue to grow, we expect to drive higher profitability at the corporate level by leveraging our existing support infrastructure, as we believe that as our restaurant base grows, our general and administrative costs over several years will increase at a slower rate than our sales.

Heighten Brand Awareness. We intend to continue to pursue targeted local marketing efforts and plan to increase our investment in advertising. We intend to continue to promote limited time offerings to build guest loyalty and brand awareness.

RISK FACTORS

Investing in our Class A common stock involves a high degree of risk. Before deciding whether to invest in our Class A common stock, you should consider carefully the risks and uncertainties described under the heading “Risk Factors” contained in the accompanying prospectus and discussed under the section entitled “Risk Factors” contained in our most recent Annual Report on Form 10-K and other filings made pursuant to Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as well as any amendments thereto reflected in any such subsequent filings with the SEC, which are incorporated by reference into this prospectus supplement in their entirety, together with other information in this prospectus supplement, the accompanying prospectus, the documents incorporated by reference and any free writing prospectus that we may authorize for use in connection with this offering. See “Where You Can Find More Information.”

The risks described in these documents are not the only ones we face, but those that we consider to be material based on the information currently known to us. There may be other unknown or unpredictable economic, business, competitive, regulatory or other factors that could have material adverse effects on our future results. Past financial performance may not be a reliable indicator of future performance, and historical trends should not be used to anticipate results or trends in future periods. If any of these risks actually occurs, our business, prospects, financial condition, results of operations or cash flow could be seriously harmed. This could cause the trading price of our Class A common stock to decline, resulting in a loss of all or part of your investment. Please also read carefully the section above entitled “Special Note Regarding Forward-Looking Statements.”

Risks Related to this Offering

The price of our Class A common stock has and may continue to fluctuate significantly, and this may make it difficult for you to resell shares of Class A common stock owned by you at times or at prices you find attractive.

The trading price of our Class A common stock has fluctuated widely and may continue to fluctuate widely as a result of a number of factors, many of which are outside our control. In addition, the stock market is subject to fluctuations in the share prices and trading volumes that affect the market prices of the shares of many companies. These broad market fluctuations have adversely affected and may continue to adversely affect the market price of our Class A common stock. Among the factors that could affect our stock price are:

- inflationary conditions with respect to the cost for food, ingredients, labor, construction, and utilities, which may adversely impact our revenues and results of operations;
- actual or anticipated quarterly fluctuations in our operating results and financial condition;
- changes in revenue or earnings estimates or publication of research reports and recommendations by financial analysts;
- failure to meet analysts’ revenue or earnings estimates;
- speculation in the press or investment community generally or relating to our reputation or the restaurant industry;
- strategic actions by us or our competitors, such as product and market expansion;
- fluctuations in the stock price and operating results of our competitors;
- future sales of our equity or equity-related securities;
- proposed or adopted regulatory changes or developments;
- investigations, proceedings or litigation that involve or affect us;
- the arrival or departure of key personnel;

Table of Contents

- domestic and international economic factors unrelated to our performance; and
- general market conditions and, in particular, developments related to market conditions for the restaurant industry.

A significant decline in our stock price could result in substantial losses for individual stockholders and could lead to costly and disruptive securities litigation.

We will have broad discretion in the use of the net proceeds from this offering and may not use them effectively.

We intend to use the net proceeds of this offering for general corporate purposes as described in “Use of Proceeds.” We cannot specify with certainty the particular uses of the net proceeds. Our management will have broad discretion in the application of the net proceeds, including for any of the purposes described in “Use of Proceeds.” Accordingly, you will have to rely upon the judgment of our management with respect to the use of the proceeds, with only limited information concerning management’s specific intentions. Our management may cause us to spend a portion or all of the net proceeds from this offering in ways that our stockholders may not desire or that may not yield a favorable return. The failure by our management to apply these funds effectively could harm our business. Pending their use, we may invest the net proceeds from this offering in a manner that does not produce income or that loses value.

We do not currently intend to pay dividends on our Class A common stock and, consequently, your ability to achieve a return on your investment will depend on appreciation in the price of our Class A common stock.

We have never declared or paid any cash dividends on our Class A common stock and do not intend to do so for the foreseeable future. We currently intend to retain future earnings, if any, for future operations, expansion and debt repayment. Any future determination to declare and pay cash dividends will be at the discretion of our board of directors and will depend on, among other things, our financial condition, results of operations, cash requirements, contractual restrictions, and such other factors as our board of directors deems relevant. In addition, covenants under our revolving credit agreement with Kura Japan, term loans, or of any indebtedness we may incur in the future may limit our ability to pay cash dividends. Therefore, you are unlikely to receive any dividends on your Class A common stock for the foreseeable future and the success of an investment in shares of our Class A common stock will depend upon any future appreciation in their value. There is no guarantee that shares of our Class A common stock will appreciate in value or even maintain the price at which you purchase shares.

There may be future sales or other dilution of our equity, which may adversely affect the market price of our Class A common stock.

As described in “Underwriting,” we have agreed, subject to specified exceptions, for a period of 90 days after the date of this prospectus supplement, not to directly or indirectly offer, sell, or conduct certain other activities with respect to additional shares of our Class A common stock, including any securities that are convertible into or exchangeable for, or warrants or other rights to acquire, our Class A common stock, without the prior written consent of William Blair & Company, L.L.C. (“William Blair”) and Barclays Capital Inc. (“Barclays”). Following the expiration of this 90-day period, the issuance of any additional shares of common or preferred stock or convertible securities, or of common stock upon conversion or exercise of convertible securities, could be substantially dilutive to holders of our Class A common stock. As of November 7, 2024, we had 10,257,323 outstanding shares of Class A common stock and 1,000,050 outstanding shares of Class B common stock. In addition, as of such date, 317,683 shares of our Class A common stock were available for future issuance under our Stock Incentive Plan, 604,468 shares of our Class A common stock were issuable upon the exercise of options, and 35,526 shares of our Class A common stock were reserved and issuable upon vesting of restricted stock units. To the extent that we issue Class A common stock, securities that are convertible into or

[Table of Contents](#)

exchangeable for Class A common stock, restricted stock units, stock appreciation rights, options or warrants to purchase shares of our Class A common stock in the future and those stock appreciation rights, options or warrants are exercised, or the restricted stock units vest, our stockholders may experience further dilution and a reduction in the value of their investment. Additionally, because our decision to issue equity securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing, or nature of our future offerings. The market price of our Class A common stock could also decline as a result of the perception that such sales could occur.

The Class A common stock is equity and is subordinate to future indebtedness and preferred stock.

Shares of our Class A common stock are equity interests and do not constitute indebtedness. As such, shares of our Class A common stock will rank junior to all indebtedness and other non-equity or preferred equity claims on us with respect to assets available to satisfy claims against us, including in the event of our liquidation. As of November 7, 2024, we had no outstanding balance and \$45 million available under our revolving credit agreement with Kura Japan. In the future, we may, from time to time, incur indebtedness under our revolving credit agreement with Kura Japan.

Additionally, our board of directors is authorized to issue up to 1,000,000 shares of preferred stock in one or more series, without any action on the part of holders of our Class A common stock. Holders of our Class A common stock are subject to the prior dividend and liquidation rights of any holders of our preferred stock or depositary shares representing such preferred stock then outstanding. For more information, see “Description of Capital Stock” in the accompanying prospectus.

If we do not meet the expectations of equity research analysts, if they do not continue to publish research or reports about our business, or if they issue unfavorable commentary or downgrade our Class A common stock, the price of our Class A common stock could decline.

The trading market for our Class A common stock relies in part on the research and reports that equity research analysts publish about us or our business. The analysts’ estimates are based upon their own opinions and are often different from our estimates or expectations. If our results of operations are below the estimates or expectations of the public market analysts and investors, our share price could decline. Moreover, the price of our shares of Class A common stock could decline if one or more securities analysts downgrade our Class A common stock or if those analysts issue other unfavorable commentary or do not publish research or reports about us or our business.

Provisions in our charter documents and Delaware law could discourage, delay, or prevent a third party from acquiring us or limit the price that investors might be willing to pay for shares of our Class A common stock.

Provisions of the Delaware General Corporation Law, our certificate of incorporation, and our amended and restated bylaws could have the effect of making it more difficult for a third party to acquire, or discouraging a third party from attempting to acquire, control of us. These provisions could delay or prevent a change in control and could limit the price that investors are willing to pay in the future for shares of our Class A common stock.

Our certificate of incorporation authorizes our board of directors to issue new series of preferred stock without stockholder approval. For more information, see “Description of Capital Stock” in the accompanying prospectus. Depending on the rights and terms of any new series created, and the reaction of the market to the series, your rights or the value of your shares of Class A common stock could be negatively affected. The ability of our board of directors to issue new series of preferred stock could also prevent or delay a third party from acquiring us, even if doing so would be beneficial to our stockholders.

Our ability to use our net operating loss carryforwards and certain other tax attributes may be limited.

As of August 31, 2024, we had federal net operating loss carryforwards of approximately \$32.9 million and federal tax credit carryover of approximately \$8.0 million. We recorded a full valuation allowance against these

[Table of Contents](#)

current net operating loss carryforwards as the benefit of such net operating loss carryforwards may not be fully utilized. In addition, under Sections 382 and 383 of the Internal Revenue Code of 1986, as amended (the “Code”), if a corporation undergoes an “ownership change,” generally defined as a greater than 50% change (by value) in ownership by “5 percent shareholders” over a rolling three-year period, the corporation’s ability to use its pre-change net operating loss carryforwards and other pre-change tax attributes to offset its post-change income may be limited. Similar rules may apply under state tax laws. We may have experienced an ownership change in the past and may experience ownership changes in the future as a result of future transactions in our stock, some of which may be outside our control. As a result, if we earn net taxable income, our ability to use our pre-change net operating loss carryforwards, or other pre-change tax attributes, to offset U.S. federal and state taxable income may be subject to significant limitations.

USE OF PROCEEDS

We estimate that the net proceeds to us of the sale of the Class A common stock that we are offering will be approximately \$55.8 million, after deducting underwriting discounts and estimated offering expenses, or approximately \$64.2 million, after deducting underwriting discounts and estimated offering expenses, if the underwriters exercise their over-allotment option in full.

Our management will have broad discretion over the uses of the net proceeds in this offering. We intend to use the net proceeds that we receive from this offering for general corporate purposes, including capital expenditures, working capital, and other business purposes. The net proceeds may be invested temporarily until they are used for such purposes.

DIVIDEND POLICY

We intend to retain all available funds and any future earnings for use in the operation of our business, and therefore we do not expect to pay any cash dividends on our Class A common stock. Any future determination to pay dividends to holders of our Class A common stock will be at the discretion of our board of directors, subject to applicable laws, and will depend upon many factors, including our results of operations, financial condition, capital requirements, restrictions that may be imposed by the terms of current and future financing instruments, and other factors that our board of directors deem relevant.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following discussion describes certain material U.S. federal income tax consequences associated with the acquisition, ownership, and disposition of shares of our Class A common stock, which we refer to in this prospectus supplement as our “common stock.” This discussion deals only with beneficial owners of shares of our common stock that purchase the shares in this offering and hold the shares as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment). Because this section is a general summary, it does not address all aspects of taxation that may be relevant to particular stockholders in light of their personal investment or tax circumstances, or to certain types of stockholders that are subject to special treatment under the U.S. federal income tax laws, including, but not limited to, brokers or dealers in securities, banks or other financial institutions, regulated investment companies, real estate investment trusts, insurance companies, tax-exempt entities, persons holding common stock as a part of a hedging, integrated, conversion or constructive sale transaction or a straddle, persons subject to special tax accounting rules under Section 451(b) of the Code, traders in securities that elect to use a mark-to-market method of accounting for their securities holdings, persons liable for alternative minimum tax, U.S. Holders (as defined below) whose “functional currency” is not the U.S. dollar, entities or arrangements treated as partnerships for U.S. federal income tax purposes or investors in such entities, persons who acquire our common stock through the exercise of employee stock options or otherwise as compensation for services, certain U.S. expatriates, “controlled foreign corporations,” “passive foreign investment companies,” and persons deemed to sell our common stock under the constructive sale provisions of the Code.

This discussion is based upon the provisions of the Code, existing and proposed U.S. Treasury regulations promulgated thereunder and administrative and judicial interpretations thereof, all as in effect on the date hereof. Any such authorities may be repealed, revoked, modified, or subjected to differing interpretations, possibly with retroactive effect, which may result in U.S. federal income tax consequences different from those discussed below. This discussion does not address any state, local, or foreign tax consequences, or any U.S. federal tax consequences other than U.S. federal income tax consequences, such as U.S. gift or estate tax consequences.

If a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes holds our common stock, the tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. Partners in a partnership purchasing our common stock are encouraged to consult their own tax advisors.

THIS SUMMARY IS NOT INTENDED TO CONSTITUTE A COMPLETE DESCRIPTION OF ALL TAX CONSEQUENCES RELATING TO THE ACQUISITION, OWNERSHIP, AND DISPOSITION OF OUR COMMON STOCK. PROSPECTIVE HOLDERS OF OUR COMMON STOCK ARE ENCOURAGED TO CONSULT WITH THEIR OWN TAX ADVISORS REGARDING THE TAX CONSEQUENCES TO THEM (INCLUDING THE APPLICATION AND EFFECT OF ANY STATE, LOCAL, AND FOREIGN INCOME AND OTHER TAX LAWS) OF THE PURCHASE, OWNERSHIP, AND DISPOSITION OF OUR COMMON STOCK.

Consequences to U.S. Holders

The following is a summary of the U.S. federal income tax consequences that will apply to a U.S. Holder of shares of our common stock. A “U.S. Holder” of shares of our common stock means a beneficial owner of shares of common stock that is for U.S. federal income tax purposes:

- an individual citizen or resident of the United States;
- a corporation (or other entity taxable as a corporation) created or organized in the United States or under the laws of the United States or any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

Table of Contents

- a trust if it is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust or has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

Dividends. If a U.S. Holder receives a distribution in respect of shares of our common stock, it generally will be treated as a dividend for U.S. federal income tax purposes to the extent that it is paid from current or accumulated earnings and profits as determined under U.S. federal income tax principles. A distribution that exceeds current and accumulated earnings and profits will be treated as a nontaxable return of capital reducing a U.S. Holder's tax basis in the common stock and any remaining excess will be treated as capital gain from the sale or exchange of such common stock. See "—Sale or Other Taxable Disposition of Common Stock" below.

Under current law, dividend income may be taxed to an individual U.S. Holder at rates applicable to long term capital gains, provided that a minimum holding period and other limitations and requirements are satisfied. Any dividends that we pay to a U.S. Holder that is a U.S. corporation will qualify for a deduction allowed to U.S. corporations in respect of dividends received from other U.S. corporations, in an amount equal to a portion of any dividends received, subject to applicable limitations. In general, a dividend distribution to a corporate U.S.

Holder may qualify for the 50% dividends-received deduction where the U.S. Holder owns less than 20% of the voting power and value of our stock (determined without regard to certain preferred stock), or a higher dividends-received deduction in certain other cases. U.S. Holders are encouraged to consult their own tax advisors regarding the holding period and other requirements that must be satisfied in order to qualify for the reduced tax rate on dividends and the dividends-received deduction.

Sale or Other Taxable Disposition of Common Stock. A U.S. Holder generally will recognize capital gain or loss on the sale or other taxable disposition of shares of our common stock. The amount of such gain or loss will be equal to the difference between the amount realized on the sale or other disposition and the U.S. Holder's tax basis in the shares. The amount realized will include the amount of any cash and the fair market value of any other property received in exchange for the shares. The gain or loss recognized on a sale or other taxable disposition generally will be long-term capital gain or loss if the common stock had been held for more than one year. Long-term capital gains of a non-corporate U.S. Holder generally are taxed at lower rates than those applicable to ordinary income. The deductibility of capital losses is subject to certain limitations.

Medicare Contribution Tax. A U.S. Holder that is an individual, an estate or a trust (other than certain types of trusts) is required to pay a 3.8% tax on the lesser of (i) the U.S. person's "net investment income" in the case of an individual, or undistributed "net investment income" in the case of an estate or trust, in each case for the relevant taxable year and (ii) the excess of the U.S. person's modified adjusted gross income in the case of an individual, or adjusted gross income in the case of an estate or trust, in each case for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000 depending on the individual's circumstances). Net investment income generally includes, among other things, dividends and capital gains from the sale or other disposition of stock, unless such dividend income or gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). A U.S. Holder that is an individual, estate, or trust is encouraged to consult its tax advisor regarding the applicability of the Medicare tax to its income and gains in respect of its investment in our common stock.

Information Reporting and Backup Withholding. U.S. Treasury regulations require information reporting and backup withholding on certain payments on common stock or on the sale thereof. When required, we will report to the Internal Revenue Service (the "IRS") and to each U.S. Holder the amounts paid on or with respect to our common stock and the U.S. federal withholding tax, if any, withheld from such payments. A U.S. Holder will be subject to backup withholding on the dividends paid on the common stock and proceeds from the sale of the common stock at the applicable rate if the U.S. Holder (i) fails to provide us or our paying agent with a correct taxpayer identification number or certification of exempt status (such as a certification of corporate status), (ii)

Table of Contents

has been notified by the IRS that it is subject to backup withholding as a result of the failure to properly report payments of interest or dividends, or (iii) in certain circumstances, has failed to certify under penalty of perjury that it is not subject to backup withholding. A U.S. Holder may be eligible for an exemption from backup withholding by providing a properly completed IRS Form W-9 to us or our paying agent.

Backup withholding is not an additional tax. Any amounts withheld from a payment to a U.S. Holder under the backup withholding rules will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle the holder to a refund, provided that the required information or returns are timely furnished by the holder to the IRS.

Consequences to Non-U.S. Holders

The following is a summary of the U.S. federal income tax consequences that will apply to a Non-U.S. Holder of shares of our common stock. A "Non-U.S. Holder" is a beneficial owner of common stock (other than an entity or arrangement treated as a partnership for U.S. federal income tax purposes) that is not a U.S. Holder.

Dividends. Except as otherwise described below, dividends paid to a Non-U.S. Holder, if any, generally will be subject to withholding of U.S. federal income tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. A Non-U.S. Holder wishing to claim the benefits of an applicable income tax treaty will be required to complete IRS Form W-8BEN or IRS Form W-8BEN-E (or other applicable or successor form) and certify under penalties of perjury that such Non-U.S. Holder is not a U.S. person and is entitled to the benefits of the applicable income tax treaty.

Dividends paid to a Non-U.S. Holder that are effectively connected with such Non-U.S. Holder's conduct of a trade or business within the United States or, if certain treaties apply, are attributable to a U.S. permanent establishment, are not subject to the withholding tax but instead are subject to regular graduated U.S. federal income tax rates in the same manner as dividends paid to a U.S. Holder. Special certification and disclosure requirements, including the completion of IRS Form W-8ECI (or any successor form), must be satisfied for effectively connected dividends to be exempt from withholding. In addition, a non-U.S. Holder that is a foreign corporation may be subject to an additional branch profits tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty on any effectively connected dividends received by such non-U.S. Holder. In order to claim the benefit of an applicable income tax treaty, special certifications and other requirements may apply to certain Non-U.S. Holders that are entities rather than individuals.

If a Non-U.S. Holder is eligible for a reduced rate of U.S. withholding tax pursuant to an income tax treaty, such Non-U.S. Holder may obtain a refund of any excess amounts withheld by filing an appropriate claim for refund with the IRS.

Sale or Other Taxable Disposition of Common Stock. A Non-U.S. Holder generally will not be subject to U.S. federal income tax with respect to gain recognized on a sale or other taxable disposition of shares of our common stock unless:

- the Non-U.S. Holder is an individual who is present in the United States for a period or periods aggregating 183 days or more in the taxable year in which the sale or other taxable disposition occurs and certain other requirements are met;
- the gain is effectively connected with such Non-U.S. Holder's conduct of a trade or business in the United States, and, if an applicable income tax treaty so requires, the gain is attributable to a U.S. permanent establishment; or
- our common stock constitutes a U.S. real property interest by reason of our status as a "U.S. real property holding corporation" (a "USRPHC") for U.S. federal income tax purposes at any time within the shorter of the five-year period preceding the disposition or such Non-U.S. Holder's holding period of our common stock.

Table of Contents

A Non-U.S. Holder described in the first bullet point above will be subject to U.S. federal income tax at a rate of 30% (or such lower rate as specified by an applicable income tax treaty) on the amount of such gain, which generally may be offset by U.S. source capital losses, provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

An individual Non-U.S. Holder described in the second bullet above, or, subject to the exception described in the next paragraph, the third bullet above, generally will be subject to tax on the net gain derived from the sale under regular graduated U.S. federal income tax rates in the same manner as if such Non-U.S. Holder were a U.S. Holder, unless an applicable income tax treaty provides otherwise. If the Non-U.S. Holder is a foreign corporation for U.S. federal income tax purposes whose gain is described in the second bullet above, then such gain will be subject to tax on the net gain under regular graduated U.S. federal income tax rates in the same manner as if the holder were a U.S. Holder and, in addition, may be subject to the branch profits tax at a rate of 30% or at such lower rate as may be specified by an applicable income tax treaty, as adjusted for certain items.

With respect to the third bullet above, generally, a corporation is a USRPHC if the fair market value of its United States real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests and its other assets used or held for use in business. We believe that we are not currently and will not become a USRPHC. However, because the determination of whether we are a USRPHC depends on the fair market value of our U.S. real property assets relative to the fair market value of our other business assets, there can be no assurance that we will not become a USRPHC in the future. Even if we become a USRPHC, however, as long as our common stock is regularly traded on an established securities market, such common stock will be treated as an interest in a U.S. real property holding corporation only if a Non-U.S. Holder actually or constructively holds more than 5% of our regularly traded common stock at any time during the applicable period as specified in the Code, although we can provide no assurance that our common stock will be or remain regularly traded.

Information Reporting and Backup Withholding. In general, we must report annually to the IRS and to each Non-U.S. Holder the amount of dividends paid to such holder and the U.S. federal withholding tax withheld with respect to those dividends, regardless of whether withholding is reduced or eliminated by an applicable income tax treaty. Copies of this information reporting may also be made available under the provisions of a specific tax treaty or agreement with the tax authorities in the country in which the Non-U.S. Holder resides or is established.

U.S. backup withholding tax is imposed on certain dividend payments to Non-U.S. Holders that fail to furnish the information required under the U.S. information reporting requirements. Dividends on common stock paid to a Non-U.S. Holder generally will be exempt from backup withholding, provided the Non-U.S. Holder meets applicable certification requirements, including providing a correct and properly executed IRS Form

W-8BEN or IRS Form W-8BEN-E (or other applicable or successor form), or otherwise establishes an exemption.

Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a sale of our common stock within the United States or conducted through certain United States-related financial intermediaries, unless the beneficial owner certifies under penalty of perjury that it is a Non-U.S. Holder (and the payor does not have actual knowledge or reason to know that the beneficial owner is a United States person as defined under the Code), or such owner otherwise establishes an exemption.

Backup withholding is not an additional tax. Any amounts withheld from a payment to a Non-U.S. Holder under the backup withholding rules will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle the holder to a refund, provided that the required information or returns are timely furnished by the holder to the IRS.

Foreign Account Legislation

Certain provisions of the Code and the U.S. Treasury regulations and administrative guidance issued thereunder (“FATCA”) generally impose a withholding tax of 30% on any dividends on our common stock paid to certain foreign financial institutions and certain other non-U.S. entities, unless certain certification, information reporting, and other specified requirements are satisfied. An inter-governmental agreement between the United States and an applicable non-U.S. country may modify such requirements. Although withholding under FATCA would have applied to payments of gross proceeds from the sale or other disposition of our common stock on or after January 1, 2019, proposed U.S. Treasury regulations eliminate FATCA withholding on payments of gross proceeds entirely. Taxpayers generally may rely on these proposed U.S. Treasury regulations until final U.S. Treasury regulations are issued. Under certain circumstances, a Non-U.S. Holder of our common stock may be eligible for refunds or credits of such taxes. Investors are encouraged to consult with their tax advisors regarding the possible implications of this legislation on their investment in our common stock.

UNDERWRITING

Subject to the terms and conditions stated in an underwriting agreement to be entered into between us and William Blair & Company, L.L.C., Barclays Capital Inc. and TD Securities (USA) LLC, as representatives of the underwriters in this offering, the underwriters have agreed severally and not jointly to purchase, and we have agreed to sell to that underwriter, the number of shares of Class A common stock set forth opposite that underwriter's name in the following table:

<u>Underwriters</u>	<u>Number of Shares to be Purchased</u>
William Blair & Company, L.L.C.	283,288
Barclays Capital Inc.	212,466
TD Securities (USA) LLC	106,232
Craig-Hallum Capital Group LLC	39,147
Roth Capital Partners, LLC	39,147
The Benchmark Company, LLC	15,658
Total	695,938

The underwriting agreement provides that the obligations of the underwriters, severally and not jointly, to purchase the shares included in this offering are subject to approval of legal matters by counsel and to other customary conditions. The underwriters have reserved the right to withdraw, cancel, or modify offers to the public and to reject orders in whole or in part. The underwriters are obligated to purchase all the shares if they purchase any of the shares. However, the underwriters are not required to take or pay for the shares covered by the underwriters' over-allotment option described below. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or the offering of the shares may be terminated.

Shares sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus supplement. Any shares sold by the underwriters to securities dealers may be sold at a discount from the public offering price not to exceed \$2.55 per share. If all the shares are not sold at the offering price, the underwriters may change the offering price and the other selling terms.

We have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus supplement, to purchase up to 104,390 additional shares of Class A common stock at the public offering price less the underwriting discount, solely to cover over-allotments, if any. The option granted by us is equivalent to 15% of the offering size. To the extent the option is exercised, each underwriter must purchase a number of additional shares approximately proportionate to that underwriter's initial purchase commitment. Any shares issued or sold under the option will be issued and sold on the same terms and conditions as the other shares that are the subject of this offering.

We have also agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments that the underwriters may be required to make in respect of any such liabilities.

Table of Contents

The following table shows the per share and total public offering price and the underwriting discount and proceeds before expenses to us with respect to this offering of shares of Class A common stock. These amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment option to purchase up to an additional 104,390 shares of Class A common stock.

	Per Share	Total	
		No Exercise	Full Exercise
Public offering price	\$ 85.00	\$ 59,154,730.00	\$ 68,027,880.00
Underwriting discount to be paid by us with respect to this offering	\$ 4.25	\$ 2,957,736.50	\$ 3,401,394.00
Proceeds, before expenses, to us	\$ 80.75	\$ 56,196,993.50	\$ 64,626,486.00

We estimate that our total expenses of the offering, excluding underwriting discounts, will be approximately \$415,000.

No Sales of Similar Securities

We and our executive officers and directors have agreed not to sell or transfer any Class A common stock or securities convertible into, exercisable for, or exchangeable for Class A common stock, for 90 days after the date of this prospectus supplement without first obtaining the written consent of William Blair and Barclays. Specifically, we and these other persons have agreed, with certain limited exceptions, not to directly or indirectly

- offer, sell, pledge, or contract to sell any Class A common stock,
- sell any option or contract to purchase any Class A common stock,
- purchase any option or contract to sell any Class A common stock,
- grant any option, right, or warrant to purchase any Class A common stock
- lend or otherwise transfer or dispose of any Class A common stock,
- require that we file a registration statement related to the Class A common stock,
- enter into any swap or other derivatives transaction that transfers, in whole or in part, any of the economic benefits or risks of ownership of any Class A common stock, whether any such swap or transaction is to be settled by delivery of shares of Class A common stock or other securities, in cash or otherwise, or
- publicly disclose the intention to enter into any transaction described above.

This lock-up provision applies to Class A common stock and to securities convertible into or exercisable or exchangeable for Class A common stock. It also applies to Class A common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition.

Nasdaq Global Select Market Listing

The Class A common stock is listed on The Nasdaq Global Market under the symbol "KRUS."

Price Stabilization, Short Positions

Until the distribution of the shares is completed, SEC rules may limit the underwriters from bidding for and purchasing our Class A common stock. However, the underwriters may engage in transactions that stabilize the price of the Class A common stock, such as bids or purchases to peg, fix, or maintain that price.

[Table of Contents](#)

In connection with the offering, the underwriters may purchase and sell our Class A common stock in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales, and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' over-allotment option described above. The underwriters may close out any covered short position by either exercising their over-allotment option or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option granted to them. "Naked" short sales are sales in excess of such option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our Class A common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of shares of Class A common stock made by the underwriters in the open market prior to the completion of the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our Class A common stock or preventing or retarding a decline in the market price of our Class A common stock. As a result, the price of our Class A common stock may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on The Nasdaq Global Market, in the over-the-counter market, or otherwise.

Neither we nor the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our Class A common stock. In addition, neither we nor the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Passive Market Making

In connection with this offering, the underwriters may engage in passive market making transactions in the Class A common stock on The Nasdaq Global Market in accordance with Rule 103 of Regulation M under the Exchange Act during a period before the commencement of offers or sales of Class A common stock and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, that bid must then be lowered when specified purchase limits are exceeded. Passive market making may cause the price of our Class A common stock to be higher than the price that otherwise would exist in the open market in the absence of those transactions. The underwriters and dealers are not required to engage in passive market making and may end passive market making activities at any time.

Electronic Distribution

In connection with the offering, the underwriters or securities dealers may distribute prospectuses by electronic means, such as e-mail.

Other Relationships

The underwriters and certain of their respective affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

[Table of Contents](#)

In addition, in the ordinary course of their business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

The Company, the representatives, and their affiliates will rely upon the truth and accuracy of the foregoing representations, acknowledgements, and agreements.

For the purposes of this provision, the expression an “offer to the public” in relation to any shares of common stock in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and any shares of common stock to be offered so as to enable an investor to decide to purchase or subscribe for any shares of common stock, and the expression “Prospectus Regulation” means Regulation (EU) 2017/1129.

The above selling restriction is in addition to any other selling restrictions set out below.

The Company, the representatives, and their affiliates will rely upon the truth and accuracy of the foregoing representations, acknowledgements, and agreements.

For the purposes of this provision, the expression an “offer to the public” in relation to any shares of common stock in the United Kingdom means the communication in any form and by any means of sufficient information on the terms of the offer and any shares of common stock to be offered so as to enable an investor to decide to purchase or subscribe for any shares of common stock, and the expression “UK Prospectus Regulation” means Regulation (EU) 2017/1129 as it forms part of domestic law in the United Kingdom by virtue of the European Union (Withdrawal) Act 2018.

In addition, in the United Kingdom, this document is being distributed only to, and is directed only at, and any offer subsequently made may only be directed at persons who are “qualified investors” (as defined in the UK Prospectus Regulation) (i) who have professional experience in matters relating to investments falling within Article 19 (5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the “Order”) and/or (ii) who are high net worth companies (or persons to whom it may otherwise be lawfully communicated) falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as “relevant persons”). Our Business

Kura Sushi USA, Inc. (“Kura Sushi”) is a technology-enabled Japanese restaurant concept that provides guests with a distinctive dining experience by serving authentic Japanese cuisine through an engaging revolving sushi service model, which we refer to as the “Kura Experience.” We encourage healthy lifestyles by serving freshly prepared Japanese cuisine using high-quality ingredients that are free from artificial seasonings, sweeteners, colorings, and preservatives. We aim to make quality Japanese cuisine accessible to our guests across the United States through affordable prices and an inviting atmosphere.

Authentic Japanese Cuisine—A Tribute to Our Roots. We provide our guests with a Kura Experience that is uniquely Japanese and is based on the legacy built by Kura Japan. Kura Japan opened its first revolving sushi restaurant in 1984 and was among the pioneers of the revolving sushi restaurant model. Our various sushi items are made fresh using high-quality fish and certified 100% organic rice. Our vinegar, made using old-world methods, is sourced from Japan. Our broths are made in-house daily using ingredients that impart complex umami flavors. To complement our sushi selection, we offer a variety of side dishes and desserts including gyoza, tempura, soups, ramen, ojyu boxes, mochi, and cheesecake. In our commitment to our Japanese heritage and traditional cooking methods, we have prepared our food without artificial sweeteners, seasonings, colorings, or preservatives since our formation.

“Revolutionary” and Engaging Dining Experience. The Kura Experience is a multi-sensory experience for our guests comprised of the sight of our beautifully crafted cuisine weaving through our restaurants, the motion of dishes zipping by tables on the express belt, robots delivering drinks and condiments, the sound of anime videos playing on tableside touch screens, the thrill of being rewarded for achieving dining milestones, and the flavor of authentic Japanese dishes, which collectively create a highly entertaining and engaging environment for our guests. Our revolving conveyor belt service model offers a steady stream of dishes and continuous service which we believe builds anticipation and a sense of discovery among our guests. To simplify the guest experience, all plates on the revolving conveyor belt are the same price within a restaurant. In addition, items ordered on our on-demand screen arrive on the express belt in a theatrical fashion, which we believe our guests find entertaining and adds to the sense of constant motion in our restaurants. Our menu of small plates allows our guests to sample a variety of dishes, and with over 130 items on our menu, there is always something new to enjoy when our guests return. We also seek to delight and reward our guests for achieving dining milestones with short anime videos and a rotating selection of small toys from our Bikkura-Pon rewards machines. For every five plates placed into the plate slot, the tableside touch screen plays a short anime video, and for every 15 plates, our proprietary tableside Bikkura-Pon rewards machine dispenses a toy. We believe our Bikkura-Pon rewards machines encourage guests to consume a greater quantity of plates as they work towards achieving the next dining milestone. Our continuous service model creates an atmosphere of active participation where food is at the center of the conversation, and we believe it also creates a memorable and shareable experience for our guests.

Compelling Value Proposition with Broad Appeal. Our service model allows our guests to control their dining experience, from food variety to time spent on a meal, and from portions to check size. With instant

access to food on the revolving conveyor belt, our guests can drop in for a quick meal or stay longer for a more relaxed dining experience. Our guests can enjoy high-quality dishes at affordable prices because of our efficient kitchen operations and low front-of-house labor needs. The average plate price on the revolving conveyor belt of our restaurants is around \$3.50, which appeals to guests with appetites and budgets both large and small. We believe that our authentic approach to a popular cuisine and unique and flexible dining experience appeal to a wide range of demographics. In addition, we believe our commitment to high-quality and non-artificial ingredients in our food is at the forefront of current dining trends as consumers continue to seek healthy and natural food options.

Highly Attractive Restaurant-Level Economics. At Kura Sushi, we leverage the disciplined operational expertise honed over the more than 35-year history of Kura Japan to help us achieve strong restaurant-level economics. We believe our results are driven by our high-volume restaurants, intelligent and efficient operations, and flexible real estate model:

- **High-Volume Restaurants:** We believe the combination of authentic Japanese cuisine at an accessible price point and a service model that promotes discovery, fun, and optionality for guests creates a highly differentiated dining experience that drives traffic and robust sales in our restaurants;
- **Intelligent and Efficient Operations:** Our revolving conveyor belt, express belt, and touch screen menu enable self-service dining and reduce our need for service staff. In addition, our use of sushi robots, vinegar mixing machines, and automatic rice washers in our kitchens eliminates the need for highly trained and expensive sushi chefs. The proprietary technology deployed in our kitchens allows us to collect real-time data on food consumption and guest preferences which we analyze to further optimize our restaurants and enhance the dining experience; and
- **Flexible Real Estate:** We have a flexible restaurant model which has allowed us to open restaurants as small as 1,600 square feet and as large as 6,800 square feet. We believe this allows us to maximize our sales per square foot.

Please also read carefully the section below entitled “Special Note Regarding Forward-Looking Statements.”

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the documents we have filed with the SEC that are incorporated by reference contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. We have based these forward-looking statements largely on our current expectations and projections about future events and trends that we believe may affect our financial condition, results of operations, business strategy, short-term and long-term business operations and objectives, and financial needs. These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including but not limited to:

- our ability to expand in existing and new markets;
- our projected growth in the number of our restaurants;
- macroeconomic conditions and other economic factors;
- our ability to compete with many other restaurants;
- our reliance on vendors, suppliers and distributors, including Kura Japan;
- changes in food and supply costs, including the impact of inflation and tariffs;

In light of these risks, uncertainties and assumptions, the future events and trends discussed in this prospectus and the documents we have filed with the SEC that are incorporated by reference may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements.

Preferred Stock

Subject to limitations prescribed by law and in our amended and restated certificate of incorporation, our board of directors is authorized to provide by resolution for the issuance of the shares of preferred stock in one or more series, and to establish from time to time the number of shares to be included in each such series, and to fix the designation, powers, privileges, preferences, and relative participating, optional or other rights, if any, of the shares of each such series and the qualifications, limitations or restrictions thereof. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring or preventing a change in control of the Company.

Voting Rights

Except as required by Delaware law or except as otherwise provided in our amended and restated certificate of incorporation, Class A common stock and Class B common stock will vote together as a single class on all matters presented to a vote of stockholders, including the election of directors. Each holder of Class A common stock is entitled to one vote for each share held of record on the applicable record date for all of these matters, while each holder of Class B common stock is entitled to 10 votes for each share held of record on the applicable record date for all of these matters.

Holders of Class A common stock have no cumulative voting rights or preemptive rights to purchase or subscribe for any stock or other securities, and there are no conversion rights or redemption or sinking fund provisions with respect to Class A common stock. Class B common stock is identical in all respects to Class A common stock, except with respect to voting and conversion rights. Kura Japan will be the only holder of shares of Class B common stock.

Anti-Takeover Effects of Delaware Law, Our Amended and Restated Certificate of Incorporation and Our Amended and Restated Bylaws

Certain provisions of Delaware law and our amended and restated certificate of incorporation and amended and restated bylaws could make the acquisition of the Company more difficult. These provisions of the Delaware General Corporation Law could prohibit or delay mergers or other takeover or change in control attempts and, accordingly, may discourage attempts to acquire us. These provisions, summarized below, are expected to discourage certain types of coercive takeover practices and inadequate takeover bids and are designed to encourage persons seeking to acquire control of us to negotiate with our board of directors.

Stockholder meetings. Under our amended and restated certificate of incorporation and amended and restated bylaws, only the board of directors, or the chairman of the board of directors or the Chief Executive Officer with the concurrence of a majority of the board of directors, may call special meetings of stockholders.

Requirements for advance notification of stockholder nominations and proposals. Our amended and restated bylaws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors.

Stockholder action by written consent permitted only if our majority shareholder and its affiliates own a majority of the voting power of the equity interests. Our amended and restated certificate of incorporation authorizes the right of stockholders to act by written consent without a meeting only for such period as Kura Japan and its affiliates collectively own a majority of the combined voting power of our outstanding equity interests. This provision will, in certain situations, make it more difficult for stockholders, who are not our majority shareholder or its affiliates, to take action opposed by the board of directors.

Undesignated preferred stock. The authorization of undesignated preferred stock makes it possible for the board of directors, without stockholder approval, to issue preferred stock with voting or other rights or preferences that could impede the success of any attempt to obtain control of us. These and other provisions may have the effect of deterring hostile takeovers or delaying changes in control or management of the Company.

Amendment of provisions in the certificate of incorporation. Our amended and restated certificate of incorporation will require the affirmative vote of the holders of at least two-thirds of the combined voting power of our outstanding equity interests in order to amend any provision of our certificate of incorporation.

Amendment of provisions in the bylaws. Our amended and restated bylaws will require the affirmative vote of the holders of at least two-thirds of the combined voting power of our outstanding equity interests in order to amend any provision of our bylaws.

Controlled company. As discussed above, our Class B common stock has 10 votes per share, while Class A common stock is the only class of stock that is publicly traded and has one vote per share. 100% of our Class B common stock is held by Kura Japan. Until our dual class structure terminates, Kura Japan will be able to control all matters submitted to our stockholders for approval even if it owns significantly less than 50% of the number of shares of our outstanding equity interests. This concentrated control could discourage others from initiating any potential merger, takeover or other change of control transaction that other stockholders may view as beneficial.

Our amended and restated certificate of incorporation expressly provides that we will not be governed by Section 203 of the Delaware General Corporation Law.

Exclusive Forum

Our amended and restated certificate of incorporation and amended and restated bylaws each contain an exclusive forum provision providing that the Court of Chancery of the State of Delaware will be the sole and exclusive forum for: (1) any derivative action or proceeding brought on our behalf, (2) any action asserting a claim of breach of a fiduciary duty owed by, or other wrongdoing by, any of our directors, officers, employees, agents or stockholders, (3) any action asserting a claim arising pursuant to any provision of the Delaware General Corporation Law, our amended and restated certificate of incorporation or our amended and restated bylaws, or (4) any action asserting a claim that is governed by the internal affairs doctrine. However, Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. As a result, the exclusive forum provision will not apply to suits brought to enforce any duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction.

In addition, Section 22 of the Securities Act creates concurrent jurisdiction for federal and state courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder. As a result, the exclusive forum provisions will not apply to suits brought to enforce any duty or liability created by the Securities Act or any other claim for which the federal and state courts have concurrent jurisdiction, and our stockholders will not be deemed to have waived our compliance with the federal securities laws and the rules and regulations thereunder.

Any person purchasing or otherwise acquiring any interest in any shares of our capital stock shall be deemed to have notice of and to have consented to this provision included in our amended and restated certificate of incorporation and our amended and restated bylaws. The exclusive forum provisions, if enforced, may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers or other employees, which may discourage such lawsuits. Alternatively, if a court were to find the exclusive forum provisions to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could have a material adverse effect on our business, financial condition, results of operations and growth prospects. For example, the Court of Chancery of the State of Delaware recently determined that a provision stating that U.S. federal district courts are the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act is not enforceable.

DESCRIPTION OF DEPOSITARY SHARES

The following description of the depositary shares and terms of the deposit agreement is a summary. It summarizes only those aspects of the depositary shares and those portions of the deposit agreement which we believe will be most important to your decision to invest in our depositary shares. There may be other provisions in the deposit agreement and the depositary receipt relating to the depositary shares which are also important to you. You should read these documents for a full description of the terms of the depositary shares. The forms of the deposit agreement and the depositary receipt will be filed or incorporated by reference as exhibits to the registration statement of which this prospectus is a part.

General

We may choose to offer from time to time fractional interests in our shares of common stock or preferred stock. If we do so, we will issue fractional interests in our common stock or preferred stock, as the case may be, in the form of depositary shares. Each depositary share would represent a fraction of a share of common stock or a fraction of a share of a particular series of preferred stock, as the case may be, and would be evidenced by a depositary receipt.

We will deposit the shares of common stock or preferred stock represented by depositary shares under a deposit agreement between us and a depositary which we will name in the applicable prospectus supplement. Subject to the terms of the deposit agreement, as an owner of a depositary share you will be entitled, in proportion to the applicable fraction of a share of common stock or preferred stock represented by the depositary share, to all the rights and preferences of the common stock or preferred stock, as the case may be, represented by the depositary share, including, as the case may be, dividend, voting, conversion, redemption, subscription and liquidation rights.

Dividends and Other Distributions

The depositary will distribute all payments of cash dividends or other cash distributions received in respect of the common stock or preferred stock, as the case may be, in proportion to the numbers of the depositary shares owned by the applicable holders on the relevant record date. The depositary will distribute only an amount, however, that can be distributed without attributing to any holder of depositary shares a fraction of one cent, and any balance not so distributed will be added to and treated as part of the next sum received by the depositary for distribution to record holders of depositary shares.

If there is a non-cash distribution, the depositary will distribute property received by it to the record holders of depositary shares entitled to it, unless the depositary determines that it is not feasible to make the distribution. If this happens, the depositary may, with our approval, sell the property and distribute the net sale proceeds to the holders. The deposit agreement will also contain provisions relating to the manner in which any subscription or similar rights that we offer to holders of the preferred stock will be made available to the holders of depositary shares.

Redemption of Depositary Shares

If we redeem common stock or a series of preferred stock represented by depositary shares, the depositary shares will be redeemed from the redemption proceeds received by the depositary. The depositary will mail notice of redemption not less than 30, and not more than 60, days before the date fixed for redemption to the record holders of the depositary shares to be redeemed at their addresses appearing in the depositary's books. The redemption price for each depositary share will be equal to the applicable fraction of the redemption price for each share of common stock or preferred stock, as the case may be, payable in relation to the redeemed common stock or preferred stock. Whenever we redeem shares of common stock or preferred stock held by the depositary, the depositary will redeem as of the same redemption date the number of depositary shares representing, as the

Table of Contents

case may be, fractional interests in the shares of common stock or preferred stock redeemed. If fewer than all the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected by lot, proportionately or by any other equitable method as the depositary may determine.

After the date fixed for redemption, the depositary shares called for redemption will no longer be considered outstanding and all rights of the holders of the depositary shares will cease, except the right to receive the cash, securities or other property payable upon the redemption and any cash, securities or other property to which the holders of the redeemed depositary shares were entitled upon surrender to the depositary of the depositary receipts evidencing the depositary shares.

The amount distributed in any of the foregoing cases will be reduced by any amount required to be withheld by us or the depositary on account of any taxes.

Voting the Depositary Shares

Upon receipt of notice of any meeting at which you are entitled to vote, as holder of fractional interests in common stock or preferred stock, the depositary will mail to you the information contained in that notice. Each record holder of the depositary shares on the record date will be entitled to instruct the depositary how to vote the amount of the common stock or preferred stock represented by that holder's depositary shares. The record date for the depositary shares will be the same date as the record date for the common stock or preferred stock, as the case may be. The depositary will endeavor, to the extent practicable, to vote the amount of the common stock or preferred stock, as the case may be, represented by the depositary shares in accordance with those instructions. We will agree to take all reasonable action which the depositary may deem necessary to enable the depositary to do so. The depositary will abstain from voting shares of the common stock or preferred stock, as the case may be, if it does not receive specific instructions from you.

Amendment and Termination of Depositary Agreement

We may enter into an agreement with the depositary at any time to amend the form of depositary receipt evidencing the depositary shares and any provision of the deposit agreement. However, the holders of a majority of the depositary shares must approve any amendment which materially and adversely alters the rights of the existing holders of depositary shares. We or the depositary may terminate the deposit agreement only if (a) all outstanding depositary shares issued under the agreement have been redeemed or (b) a final distribution in connection with any liquidation, dissolution or winding up has been made to the holders of the depositary shares.

Charges of Depositary

We will pay all transfer and other taxes and governmental charges arising solely from the existence of the depositary arrangements. We will also pay charges of the depositary in connection with the initial deposit of the preferred shares and any redemption of the preferred shares. Holders of depositary shares will pay transfer and other taxes and governmental charges and such other charges as are expressly provided in the deposit agreement to be for their accounts.

Resignation and Removal of Depositary

The depositary may resign at any time by delivering to us notice of its election to resign, and we may at any time remove the depositary. Any resignation or removal will take effect when a successor depositary has been appointed and has accepted the appointment. Such appointment must occur within 60 days after delivery of the notice of resignation or removal. The successor depositary must be a bank or trust company having its principal office in the United States and having a combined capital and surplus of at least \$125,000,000.

Miscellaneous

The depositary will forward all reports and communications from us which are delivered to the depositary and which we are required or otherwise determine to furnish to holders of common stock or preferred stock, as the case may be.

We and the depositary will not be liable under the deposit agreement to you other than for our gross negligence, willful misconduct or bad faith. Neither we nor the depositary will be liable if we or the depositary is prevented or delayed by law or any circumstance beyond its control in performing its obligations under the deposit agreement. Our and the depositary's obligations under the deposit agreement will be limited to performance in good faith of our respective duties under the agreement. We and the depositary will not be obligated to prosecute or defend any legal proceedings relating to any depositary shares, common stock or preferred stock, as the case may be, unless a satisfactory indemnity is furnished. We and the depositary may rely upon written advice of counsel or accountants, or upon information provided by persons presenting shares of common stock or preferred stock, as the case may be, for deposit, you or other persons believed to be competent and on documents which we and the depositary believe to be genuine.

DESCRIPTION OF WARRANTS

The following description of the warrants and terms of the warrant agreement is a summary. It summarizes only those aspects of the warrants and those portions of the warrant agreement which we believe will be most important to your decision to invest in our warrants. There may be other provisions in the warrant agreement and the warrant certificate relating to the warrants which are also important to you. You should read these documents for a full description of the terms of the warrants. The forms of the warrant agreement and the warrant certificate will be filed or incorporated by reference as exhibits to the registration statement of which this prospectus is a part.

General

We may issue warrants to purchase equity securities. We may issue warrants independently or together with any offered securities. The warrants may be attached to or separate from those offered securities. We will issue the warrants under warrant agreements to be entered into between us and a bank or trust company, as warrant agent, all as described in the applicable prospectus supplement. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants.

The prospectus supplement relating to any warrants that we may offer will contain the specific terms of the warrants. These terms may include, but are not limited to, the following:

- the title of the warrants;
- the designation, amount and terms of the securities for which the warrants are exercisable;
- the designation and terms of the other securities, if any, with which the warrants are to be issued and the number of warrants issued with each other security;
- the price or prices at which the warrants will be issued;
- the aggregate number of warrants;
- any provisions for adjustment of the number or amount of securities receivable upon exercise of the warrants or the exercise price of the warrants;
- the price or prices at which the securities purchasable upon exercise of the warrants may be purchased;
- the terms of any mandatory or optional redemption provisions relating to the warrants;

Table of Contents

- the terms of any right we have to accelerate the exercise of the warrants upon the occurrence of certain events;
- if the warrants will be sold with any other securities, and the date, if any, on and after which those warrants and any other securities will be transferable;
- the identity of the warrant agent;
- if applicable, the date on and after which the warrants and the securities purchasable upon exercise of the warrants will be separately transferable;
- if applicable, a discussion of the material United States federal income tax considerations applicable to the exercise of the warrants;
- any other terms of the warrants, including terms, procedures and limitations relating to the exchange and exercise of the warrants;
- the date on which the right to exercise the warrants will commence, and the date on which the right will expire;
- the maximum or minimum number of warrants which may be exercised at any time; and
- information with respect to book-entry procedures, if any.

Exercise of Warrants

Each warrant will entitle the holder of warrants to purchase for cash the amount of equity securities, at the exercise price stated or determinable in the prospectus supplement for the warrants. Warrants may be exercised at any time up to the close of business on the expiration date shown in the prospectus supplement relating to the warrants, unless otherwise specified in the applicable prospectus supplement. After the close of business on the expiration date, unexercised warrants will become void. Warrants may be exercised as described in the prospectus supplement relating to the warrants. When the warrant holder makes the payment and properly completes and signs the warrant certificate at the corporate trust office of the warrant agent or any other office indicated in the prospectus supplement, we will, as soon as possible, forward the equity securities that the warrant holder has purchased. If the warrant holder exercises the warrant for less than all of the warrants represented by the warrant certificate, we will issue a new warrant certificate for the remaining warrants.

DESCRIPTION OF SUBSCRIPTION RIGHTS

The following description of the subscription rights and terms of the subscription rights agreement is a summary. It summarizes only those aspects of the subscription rights and those portions of the subscription rights agreement which we believe will be most important to your decision to invest in our subscription rights. There may be other provisions in the subscription rights agreement and the subscription certificate relating to the subscription rights which are also important to you. You should read these documents for a full description of the terms of the subscription rights. The forms of the subscription rights agreement and the subscription certificate will be filed or incorporated by reference as exhibits to the registration statement of which this prospectus is a part.

General

Subscription rights may be issued independently or together with any other security and may or may not be transferable. As part of the rights offering, we may enter into a standby underwriting or other arrangement under which the underwriters or any other person would purchase any securities that are not purchased in such rights offering. If we issue subscription rights, they may be governed by a separate subscription rights agreement that we will sign with a bank or trust company, as rights agent, that will be named in the applicable prospectus supplement. The rights agent will act solely as our agent and will not assume any obligation to any holders of rights certificates or beneficial owners of rights.

Table of Contents

In general, a right entitles the holder to purchase for cash a specific number of shares of equity securities at a specified exercise price. The rights are normally issued to stockholders as of a specific record date, may be exercised only for a limited period of time and become void following the expiration of such period. If we determine to issue subscription rights, we will accompany this prospectus with a prospectus supplement that will describe, among other things:

- the record date for stockholders entitled to receive the rights;
- the number of equity securities that may be purchased upon exercise of each right;
- the exercise price of the rights;
- whether the rights are transferable;
- the period during which the rights may be exercised and when they will expire;
- the steps required to exercise the rights;
- the price, if any, for the subscription rights;
- the number of subscription rights issued;
- the terms of the equity securities;
- the extent to which the subscription rights are transferable;
- if applicable, the material terms of any standby underwriting or other arrangement entered into by us in connection with the offering of subscription rights;
- the other terms of the subscription rights, including the terms, procedures and limitations relating to the exercise of the subscription rights;
- whether the rights include “oversubscription rights” so that the holder may purchase more securities if other holders do not purchase their full allotments;
- whether we intend to sell the shares of equity securities that are not purchased in the rights offering to an underwriter or other purchaser under a contractual “standby” commitment or other arrangement; and
- any applicable United States federal income tax considerations.

If fewer than all of the rights issued in any rights offering are exercised, we may offer any unsubscribed securities directly to persons other than stockholders, to or through agents, underwriters or dealers or through a combination of such methods, including pursuant to standby arrangements, as described in the applicable prospectus supplement.

DESCRIPTION OF SHARE PURCHASE CONTRACTS AND SHARE PURCHASE UNITS

We may issue share purchase contracts, representing contracts obligating holders to purchase from us, and obligating us to sell to the holders, a specified number of shares of common stock, shares of preferred stock, or other securities described in this prospectus or the applicable prospectus supplement at a future date or dates. The price per share may be fixed at the time the share purchase contracts are issued or may be determined by reference to a specific formula set forth in the share purchase contracts. The share purchase contracts may be issued separately or as a part of share purchase units consisting of a share purchase contract and either shares of common stock, shares of preferred stock, debt obligations of third parties, including U.S. Treasury securities, any other security described in the applicable prospectus supplement, or any combination of the foregoing, securing the holder’s obligations to purchase the securities under the share purchase contracts.

The share purchase contracts may require us to make periodic payments to the holders of the share purchase units or vice versa, and such payments may be unsecured or prefunded on some basis. The share purchase

[Table of Contents](#)

contracts may require holders to secure their obligations thereunder in a specified manner. In certain circumstances, we may deliver newly issued prepaid share purchase contracts upon release to a holder of any collateral securing the holder's obligations under the original share purchase contract.

The applicable prospectus supplement will describe the terms of the share purchase contracts or share purchase units. The description in the prospectus supplement will only be a summary, and you should read the share purchase contracts, and, if applicable, collateral or depositary arrangements, relating to the share purchase contracts or share purchase units. Material United States federal income tax considerations applicable to the share purchase units and the share purchase contracts will also be discussed in the applicable prospectus supplement.

Each share purchase contract or share purchase unit and any related agreement will be governed by, and construed in accordance with, the laws of the State of New York.

PLAN OF DISTRIBUTION

We may sell our securities from time to time pursuant to underwritten public offerings, direct sales to the public, negotiated transactions, block trades or a combination of these methods. We may sell our securities to or through underwriters or dealers, through agents, directly to one or more purchasers or through a combination of any of these methods. We may distribute securities from time to time in one or more transactions:

- at a fixed price or prices, which may be changed;
- at market prices prevailing at the time of sale;
- at prices related to such prevailing market prices; or
- at negotiated prices.

Each time we use this prospectus to sell our securities, we will also provide a prospectus supplement. A prospectus supplement or supplements (and any related free writing prospectus that we may authorize to be provided to you) will describe the specific plan of distribution and terms of the offering of the securities, including, to the extent applicable:

- the name or names of the underwriters, dealers or agents, if any, and the amounts of securities underwritten or purchased by each of them;
- the purchase price of the securities or other consideration therefor, and the proceeds, if any, we will receive from the sale;
- any over-allotment options under which underwriters may purchase additional securities from us;
- any agency fees or underwriting discounts and other items constituting agents' or underwriters' compensation;
- any public offering price;
- any discounts or concessions allowed or reallocated or paid to dealers; and
- any securities exchange or market on which the securities may be listed.

Only underwriters, dealers or agents named in the prospectus supplement will be underwriters, dealers or agents of the securities offered by the prospectus supplement.

If underwriters are used in the sale, they will acquire the securities for their own account, and may resell the securities from time to time in one or more transactions at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the securities will be subject to the

Table of Contents

conditions set forth in the applicable underwriting agreement. We may offer the securities to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. Subject to certain conditions, the underwriters will be obligated to purchase all of the securities offered by the prospectus supplement, other than securities covered by any over-allotment option. Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may change from time to time. We may use underwriters with whom we have a material relationship. If so, we will name the underwriter and describe the nature of any such relationship in the prospectus supplement.

We may sell securities directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of securities and we will describe any commissions we will pay the agent in the prospectus supplement. If we use agents, they may then resell the securities to the public at varying prices to be determined by such agents at the time of resale. Unless the prospectus supplement states otherwise, our agent will act on a best-efforts basis for the period of its appointment. If we sell securities directly, then we may solicit offers to purchase the securities directly, and we may sell the securities directly to institutional or other investors, who may be deemed underwriters within the meaning of the Securities Act with respect to any resales of those securities. Unless otherwise indicated in a prospectus supplement, if we sell directly, no underwriters, dealers or agents would be involved. We will not make an offer of securities in any jurisdiction that does not permit such an offer. The terms of these sales will be described in the applicable prospectus supplement.

We may authorize agents or underwriters to solicit offers by certain types of institutional investors to purchase securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. Such institutions could include banks, insurance companies, pension funds, investment companies and educational and charitable institutions. We will describe the conditions to these contracts and the commissions we must pay for solicitation of these contracts in the prospectus supplement.

We may provide agents and underwriters with indemnification against civil liabilities, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to these liabilities. Agents and underwriters may engage in transactions with, or perform services for, us in the ordinary course of business.

All securities we may offer, other than common stock, will be new issues of securities with no established trading market. Any underwriters may make a market in these securities, but will not be obligated to do so and may discontinue any market making at any time without notice. We cannot guarantee the liquidity of the trading markets for any securities.

We may grant underwriters who participate in the distribution of securities an option to purchase additional securities to cover over-allotments, if any, in connection with the distribution. Any underwriter may engage in over-allotment, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum price. Syndicate-covering or other short-covering transactions involve purchases of the securities, either through exercise of the over-allotment option or in the open market after the distribution is completed, to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a stabilizing or covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time.

Unless otherwise mandated by order or other action taken by the SEC, any underwriters or agents that are qualified market makers on Nasdaq may engage in passive market making transactions in the common stock on Nasdaq in accordance with Regulation M under the Exchange Act, during the business day prior to the pricing of the offering, before the commencement of offers or sales of the common stock. Passive market makers must

Table of Contents

comply with applicable volume and price limitations and must be identified as passive market makers. In general, a passive market maker must display its bid at a price not in excess of the highest independent bid for such security; if all independent bids are lowered below the passive market maker's bid, however, the passive market maker's bid must then be lowered when certain purchase limits are exceeded. Passive market making may stabilize the market price of the securities at a level above that which might otherwise prevail in the open market and, if commenced, may be discontinued at any time.

In compliance with guidelines of the Financial Industry Regulatory Authority, or FINRA, the aggregate maximum consideration, discount or agency fees or other items constituting underwriting compensation to be received by any FINRA member or independent broker dealer may not exceed 8% of the aggregate amount of the securities offered pursuant to this prospectus and any applicable prospectus supplement or pricing supplement, as the case may be.

LEGAL MATTERS

Certain legal matters with respect to the validity of the issuance of the securities offered hereby will be passed upon by our counsel, Squire Patton Boggs (US) LLP, Los Angeles, California, unless otherwise indicated in the applicable prospectus supplement. If the securities are being distributed in an underwritten offering, the validity of the securities will be passed upon for the underwriters by counsel identified in the applicable prospectus supplement.
